To Whom It May Concern:

I am writing to inform you of a service which is provided by McCord Elementary. According to Public Law 94-142, all children have a right to a free educational opportunity even if they are disabled. The district is attempting to identify and located every qualified disabled person residing within the school district who is not receiving a public education. Mrs. Brook Fredricks is the contact person. Her phone number is 580-765-8806. This service includes; speech, language, and hearing management; services for the mentally handicapped; diagnostics evaluations; autistic, and assistance for any child with learning difficulties that would qualify. (Birth to 21 years of age)

Please advertise, post this, or refer any family that may benefit from this service. We will keep all information confidential and work with each case individually. We are here to help, just contact us!

Sincerely,

Boyd Braden
Principal
